In a second stage, candidates were selected according to the quantity and quality of their scientific production. This step was necessary in order to assess the probability of a successful tenure-track performance given the present tenure requirements at Bocconi.

Among the 48 applications that fulfilled the formal conditions the Committee recommended campus visits for three candidates: Valeria Giacomini, <...> and <...>.

We provide here an overview of the qualifications and research profiles of the candidates who were invited for a campus visit.
