

## **Assistant Professor of Accounting with special interest in Data Analytics**

As all undergraduate students now take a course in Python programming, the Department of Accounting of Bocconi University is looking to recruit an Assistant Professor who is proficient in computer coding and data analytics.

Teaching duties will involve instructing on courses covering Advanced and Intermediate Coding, Big Data in Business and Blockchain protocols.

Applicants are expected to have demonstrated potential for, or history of, outstanding research in these areas as well as having strong related teaching skills.

Applications have to be submitted online at:
